

How to correct Persian numerations in Latex

To correct the order of appearance of Persian numerations of sections, figures, and tables in latex:

1-Open the “JMTemplate.sty” file.

2- Copy/replace these commands in it.

```
\renewcommand{\thechapter}{\arabic{chapter}}
```

```
\renewcommand{\thesection}{\arabic{chapter}-\arabic{section}}
```

```
\renewcommand{\thetable}{\arabic{chapter}-\arabic{table}}
```

```
\renewcommand{\thefigure}{\arabic{chapter}-\arabic{figure}}
```

```
\renewcommand{\thesubsection}{\arabic{chapter}-  
\arabic{section}\arabic{subsection}}
```

3- Save the file.
